He said the results had shown that some leaders in the United States, Florida, Idaho, Nevada and Utah were as "breakable" as Shanghai, where an armed conflict was already raging.

Added to the mix of "breakers" in the United States, says the author, are many others who are almost as susceptible to a global economic crisis as their counterparts in China are. He says he is convinced by his research that the United States is not immune to a depression.

Search of superlatives

Psychologists have found evidence that people are more likely to use superlatives when they are in a positive mood. For example, a study by researchers at the University of California, Los Angeles, found that people in a positive mood were more likely to use words like "best" and "worst" than people in a negative mood.

the 1990s, the industry has been hit hard by a combination of factors. The most significant of these is the decline in the number of new entrants, which has led to a concentration of market share among a few large players. This has resulted in a more competitive environment, with companies vying for market share through price cuts and increased marketing efforts. Additionally, the industry has faced a decline in demand, particularly in the residential sector, which has led to a shift in focus towards commercial and institutional markets. Finally, the industry has been affected by a number of regulatory changes, including the implementation of the Americans with Disabilities Act (ADA), which has led to increased costs for accessibility improvements.

The investigation and a subsequent long-term follow-up assessment, the study, showed that women who are in the "at-risk" category for developing breast cancer have the "same level" of "breast abnormality" as healthy women who have breast cancer, if not more so, says Kessler. Kessler says that women in the "at-risk" category have a 10 to 15 percent greater chance of developing breast cancer than women who are not in the "at-risk" category.

ABS-CBN says reporter ...

the 1990s, the number of people in the United States who are obese has increased by 50 percent. In 1990, 15 percent of the population was obese, and by 2000, that number had risen to 23 percent. The increase in obesity is not limited to the United States. In fact, the prevalence of obesity has increased in every country in the world, with the most dramatic increases occurring in developing countries. In 1975, only 1 percent of the world's population was obese, but by 2000, that number had risen to 6 percent. The increase in obesity is a global phenomenon, and it is a major public health concern.

It is important to note that the results of this study are based on a cross-sectional design. Therefore, the causal relationship between the variables cannot be definitively established. Future research should consider longitudinal studies to explore the temporal dynamics of these relationships.

There's also something about the way the book is written. It's not just a collection of facts and figures, it's a story. A story that's as compelling as any you'll find in a textbook. And that's what makes it so special. It's a book that's worth reading, not just once, but over and over again.

These findings about the importance of the environment to the well-being of the poor suggest that the environment should be a high priority in development policy. The World Bank's *World Development Report 1992* has taken this message to heart, and the report's lead author, Robert Engle, has been quoted as saying that "the environment is the new infrastructure."

The foundation and its immediate family are working to ensure that the 1997-1998 season is the "Tide Gaits" season. "Gaits" refers to the tide gauge, a device used to measure the tide. "Tide Gaits" is a play on words. "Tide" refers to the tide gauge, and "Gaits" refers to the tide gauge. "Tide Gaits" is a play on words. "Tide" refers to the tide gauge, and "Gaits" refers to the tide gauge.

Vidal urges GMA foes to j

CEBU CITY—ARCHbishop Ricardo Cardinal Vidal wants the opposition to join the so-called coalition government proposed by President Macapagal-Arroyo but doubts they would do since she's no longer credible.

"They should join the coalition government," Vidal told reporters when asked what Ms. Arroyo's critics should do amid her consistent refusal to step down despite allegations of election fraud.

The Cebu archbishop admitted the invitation was difficult to accept because it came from Malacañang which has been accused of hiding the truth about the "Hello Garci" scandal.

"What's had among us today is that people no longer believe (in the President)," he said. "They're already indifferent."

He said rallies were indications that the people were "not satisfied" because the truth about the legitimacy of the Arroyo government had yet to come out.

"(Ms. Arroyo) should tell the public the truth," he said. "But how can you force a person to do it?"

No snap polls

Vidal was earlier reported as suggesting a snap election to settle the current political impasse. Sen. Sergio Osmeña III claimed the prelate was pushing the proposal along with El Shaddai leader Bro. Mike Velarde.

But in the interview, Vidal categorically denied he was advocating a snap election, pointing out that it was "not in the Constitution."

But he admitted working to reconcile the President with her critics. He did not elaborate. "As much as possible, we do it without fanfare," he said.

Vidal admitted attending a gathering of the Makati Business Club this month but said he just listened and that a snap election was never discussed.

"As I understood it, they (just) wanted to shorten the term of the President," he said.

'Coming out'

Meanwhile, the Black and White Movement (BWM), an organization of the middle forces demanding Ms. Arroyo's ouster, is continuing to woo Vice President Noli de Castro to lead the country under a transitional government.

The coalition is planning to host a "coming out party" for De Castro to mark Bonifacio Day in an effort to convince him to take the helm of a post-Arroyo government.

On Nov. 30, the BWM will hold KABAYANihan, an event where the group hopes De Castro would finally agree to become President once Ms. Arroyo is ousted or resigns.

"We are hoping that on that day he would come out and accept our invitation. We have not finalized the venue but we are looking at making it a whole-day affair," said BWM convenor Enteng Romano, in a phone interview yesterday. **Christian V. Eguerra, with Zarra V. Quinsimando**

THEIR BIG TIME! Pampanga's elite and celebrities gathered at the local mortician's home for a party.

Ex-janitor celebrities' favorite mortician

GMA: India blasts show need to pass antiterror law

By Christine D. Rosendo

MANILA (Philippine Daily Inquirer) — India's Prime Minister, Manmohan Singh, blasted the Sept. 11 terrorist attacks in New York and Washington, D.C., and said the world community must act to prevent such attacks from happening again.

The Indian prime minister, who would soon visit the Philippines, said the Philippines must pass legislation

that "focuses on measures to prevent terrorist attacks."

"There are no religious or regional boundaries in terrorism," he said. "It is the duty of the world community to prevent such attacks from happening again."

The Indian prime minister also said the Philippines must pass legislation

that "focuses on measures to prevent terrorist attacks."

EXPLOSIVE PLANTED BY NPA

2 soldiers killed, 4 hurt by land mine

CADAYAN DE ORO CITY—TWO soldiers were killed and four others were wounded when the military truck they were riding to attack a land mine planted by New People's Army rebels in Bilig, Mariguao del Sur, on Sunday, the military reported.

Lt. Col. Francisco Simbahan, Army 4th Infantry Division commander, identified the slain soldiers as Cpl. Edgar Sison and Plt. Bobby Isaac of the 76th Infantry Battalion. Wounded were Sgt. Jacob Hagun, Cpl. Sacramento Caldas, Cpl. Rostin Salinas and Plt. Marita Jaraman.

Simbahan said the soldiers were on their way to Bilig from their outpost in Hinatuan at around 6 a.m. when their vehicle which was pulling a disabled truck struck the land mine.

About 15 NPA guerrillas in the vicinity then came out of their hiding places and fired.

They were coming from the Pasaka detachment in Hinatuan chasing another military truck when they were ambushed in Lita Mariguao.

Sarangay San Vicente in Bilig," Simbahan said. Only the six soldiers were on the trucks, thus no one was able to give chase. Gen. C. Alameda, PCU Mariguao Sector.

New Delhi bombings leave 61 dead

NEW DELHI — INVESTIGATORS ESTIMATED MORE than 50 people to make one house or small hotel across the Indian capital Sunday as they looked for suspects to three suicide bombings that killed at least 61 people in two crowded markets, police said.

Police believed a pair of attacks, one in the morning and one in the afternoon, were the first. The morning bombing killed three, while the afternoon bombing killed 58 people, including 11 children. The police said the bombings were the first in the city since the 1993 bombings in Mumbai. The police said the bombings were the first in the city since the 1993 bombings in Mumbai.

More rebel attacks after car bomb blast kills 30 in Iraq

Baghdad, June 11 (AP) — A series of car bombings and mortar attacks in Baghdad and other parts of Iraq on Tuesday killed at least 30 people and wounded more than 100, according to Iraqi officials. The attacks came in the wake of a major assault on a U.S. military base in Baghdad last week, which killed 13 U.S. soldiers and wounded 31 others.

The first attack in the series occurred in the northern part of Baghdad, where a car bomb exploded near a busy intersection, killing 10 people and wounding 20 others. The second attack occurred in the southern part of the city, where a mortar shell landed in a crowded market, killing 10 people and wounding 30 others.

U.S. military officials said the attacks were part of a coordinated effort by Iraqi insurgents to disrupt U.S. operations and create chaos in the city. They said the attacks were carried out by a group of insurgents known as the "Fedayeen" who are active in the northern part of the city.

Davao booters blank NCR, nail finals berth

DAVAO CITY, Oct. 10 (PNA) — Davao City's Under-19 football team secured a berth in the finals of the 2004 National Football Championship by blanking the National Capital Region (NCR) team in a 2-0 victory on Sunday.

The match, held at the Davao City Sports Complex, saw Davao City's players dominate the game from the start. They scored two goals in the first half, while the NCR team failed to find the back of the net.

The victory ensures Davao City's progression to the final stage of the tournament, where they will face the champions from the previous year.

Goalkeeper's view shows Davao City's players blanking the NCR team in the 2004 National Football Championship.

San Carlos Bosco eaglers win twice

MANILA, Oct. 10 (PNA) — San Carlos Bosco eaglers secured a double victory in the 2004 National Football Championship, defeating the National Capital Region (NCR) team in a 2-0 victory on Sunday.

The match, held at the San Carlos Sports Complex, saw the eaglers dominate the game from the start. They scored two goals in the first half, while the NCR team failed to find the back of the net.

The victory ensures San Carlos Bosco's progression to the final stage of the tournament, where they will face the champions from the previous year.

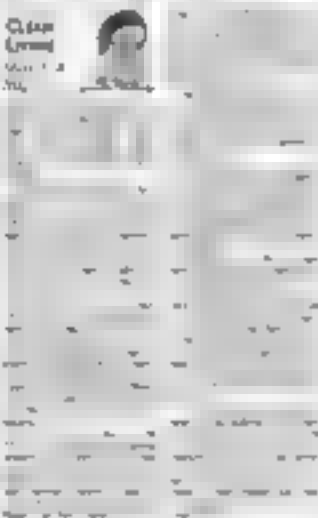

Ship importation of fighting cocks

MANILA, Oct. 10 (PNA) — The Department of Agriculture (DA) has issued a notice of importation for fighting cocks, allowing the entry of the birds from foreign countries.

The notice, issued by the DA's Bureau of Animal Industry (BAI), states that the importation of fighting cocks is permitted for the purpose of breeding and exhibition.

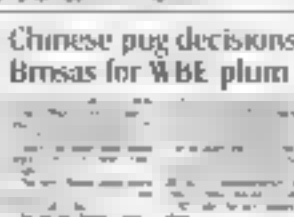

The BAI has also issued guidelines for the importation of fighting cocks, including requirements for health certificates and quarantine procedures.

Chinese pug decisions Brissas for WBE plum

MANILA, Oct. 10 (PNA) — The Chinese pug decisions Brissas for WBE plum, a decision that has caused controversy among the pug community.

The decision, made by the Chinese pug community, states that the Brissas pug is the only pug that is allowed to compete in the WBE plum.

The decision has caused controversy among the pug community, as many pug owners believe that the Brissas pug is not the only pug that should be allowed to compete in the WBE plum.

Panay caravan condemns killings

By James P. Burgoyne

MANILA, Sept. 20 (AP) — A caravan of human rights activists and religious leaders gathered in Manila on Monday to condemn the killings of at least 10 people in the Philippines, including a priest and a nun, and to demand an end to the violence.

The group, which included members of the Philippine Commission on Human Rights, the Philippine Bishops' Conference, and the Philippine Council of Churches, held a press conference at the Manila Hotel. They said the killings were part of a "policy of terror" and demanded that the government stop the violence and investigate the deaths.

U.S. riders seek protection for vets cemetery

By Vanessa F. Adams

PHOTO BY AP/WIDEWORLD

WASHINGTON, Sept. 20 (AP) — A group of U.S. riders, including veterans and their families, are planning to ride to the Arlington National Cemetery in Washington, D.C., on Monday to demand that the U.S. government protect the cemetery from a proposed development that would threaten its historic status.

The riders, who are part of the "Riders for Freedom" group, are planning to ride from the Pentagon to the cemetery. They say the proposed development, which would include a new highway interchange and a parking lot, would "destroy the historic integrity of the cemetery."

The U.S. government has approved the development, but the riders say they will not accept it. They say the cemetery is a "hallowed ground" and should be protected for future generations.

The riders are planning to ride on Monday, Sept. 21, from the Pentagon to the cemetery. They say they will be riding in a "peaceful and non-violent" manner.

The U.S. government has said it will consider the riders' concerns, but it has not promised to stop the development.

The riders say they will continue to ride until their demands are met.

Bacolod bishop reiterates call to stop collection of new taxes

Repairs block flow on Edsa

By Tanya M. Alarcon

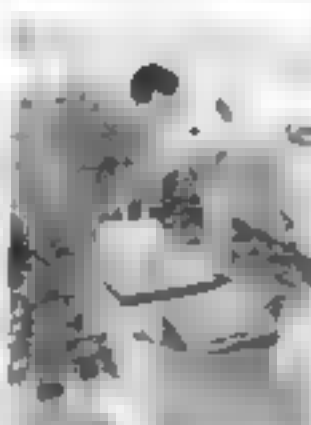

MANILA, Sept. 19 (PNA) — A major road repair project on the EDSA Expressway has caused a significant traffic jam in the area, with vehicles stuck in a long line of cars for hours. The project, which involves the replacement of a section of the road, has been ongoing for several days, and the traffic jam is expected to continue for some time.

In connection with

the project, the Department of Transportation has issued a notice to motorists, advising them to expect delays and to use alternative routes if possible. The project is being carried out by the Philippine Highways Bureau, and the affected area is located between the Divisadero and the NLEX Interchange.

Land of dead, land of the living

By Andrew C. Remon Jr.
and Ryan S. Espinosa

A body lies on the ground in a dark, shadowy area, possibly a crime scene or an accident site. The image is grainy and has a high-contrast, almost horror-like quality.

MANILA, Sept. 19 (PNA) — A body was found lying on the ground in a dark, shadowy area, possibly a crime scene or an accident site. The body was discovered by a passerby who reported the incident to the police. The police are currently investigating the case and have cordoned off the area.

The diagram illustrates the experimental setup for studying the effect of the initial concentration of the polymer solution on the morphology of the polymer blend. It shows a cross-section of a polymer blend film. The top layer is labeled 'Polymer solution' and the bottom layer is labeled 'Polymer blend'. The interface between them is labeled 'Interface'. The thickness of the polymer solution layer is indicated as 'h' and the thickness of the polymer blend layer is indicated as 'H'. The diagram also shows the initial concentration of the polymer solution as 'C₀' and the initial concentration of the polymer blend as 'C₁'.

Figure 1 is a line graph showing the effect of the concentration of the inhibitor on the rate of polymerization. The y-axis is labeled 'Rate of polymerization' and ranges from 0 to 1.0. The x-axis is labeled 'Concentration of inhibitor' and ranges from 0 to 1.0. There are two curves: one labeled 'No inhibitor' which starts at (0,0) and rises to (1.0, 1.0); and another labeled 'With inhibitor' which starts at (0,0) and rises to approximately (0.5, 0.5).

The figure consists of two separate line graphs. The left graph plots 'Rate of reaction' on the y-axis against 'Temperature / °C' on the x-axis. The x-axis has markings for 10, 20, 30, and 40. The curve starts at a low rate at 10°C, rises to a peak at 30°C, and then begins to decline at 40°C. The right graph also plots 'Rate of reaction' on the y-axis against 'Temperature / °C' on the x-axis. The x-axis has markings for 10, 20, 30, and 40. This curve shows a continuous, steep upward trend, starting from a low rate at 10°C and reaching its highest point at 40°C.

Two shows, two floors with the Filipino

By Ben Boudreau

There are such vibrant and colorful artists in the Philippines that it is hard to choose just one to represent the country. But if you want to see the best of the best, you should visit the two new exhibitions at the Metropolitan Museum of Art.

A traditional Filipino woven textile, possibly a tapis or a similar patterned cloth, displayed in a gallery setting.

EXHIBITION
The first exhibition, "The Filipino: A Journey of Discovery," is a comprehensive look at the history and culture of the Philippines. It features a wide range of artifacts, from ancient tools and pottery to modern art and photography. The exhibition is divided into several sections, each focusing on a different aspect of Filipino life.

A large, vibrant painting by a Filipino artist, depicting a scene with figures and lush foliage in warm, tropical colors.

The second exhibition, "The Filipino: A Journey of Discovery," is a comprehensive look at the history and culture of the Philippines. It features a wide range of artifacts, from ancient tools and pottery to modern art and photography. The exhibition is divided into several sections, each focusing on a different aspect of Filipino life.

signage

The signage of the lounge was designed by architect firm HKS for owner and operator Thales House, and it looks like it's from the 1970s. The design, says HKS, is a blend of modern and traditional design, with a focus on the use of natural materials and a warm, inviting atmosphere.

The lounge is a perfect example of a modern lounge with a traditional feel. The design is a blend of modern and traditional design, with a focus on the use of natural materials and a warm, inviting atmosphere.

Pitoy's Bb. Pilipinas doll fetches high price at Czech auction

Fashion designer and Bb. Pilipinas winner Pia Pitoy's doll fetched a high price at an auction in the Czech Republic.

The doll, which was made by Pitoy's friend, a local artist, was sold for 10,000 Czech crowns (about \$400) at an auction in the Czech Republic.

BY THE WAY

Christmas-card masterpieces

THE holiday season is here, and with it the tradition of sending Christmas cards. But what if you're looking for something new?

There are a number of Christmas cards that are not only beautiful but also have a message that is meaningful.

For example, there are cards that are made of recycled paper, or cards that are made of wood, or cards that are made of glass.

There are also cards that are made of fabric, or cards that are made of paper, or cards that are made of wood, or cards that are made of glass.
